DIGIWIND AT WINDEUROPE 2025

DigiWind to showcase the future of Wind Energy Education at WindEurope 2025

Copenhagen, Denmark – 18.03.2025 – The DigiWind project is proud to announce its participation in WindEurope Annual Event 2025, taking place from 8 to 10 of April at Bella Center, Copenhagen. As a key player in wind energy education and training, DigiWind will be present at stand C3-C112, engaging with industry leaders, academia, and policymakers to advance skills development in the sector.

DigiWind's presence at WindEurope 2025 will focus on three main objectives:

- **Increasing awareness** of the project's role in shaping the future of wind energy education;
- Showcasing **Lifelong Learning (LLL) Programmes** and upcoming **Master Courses**, as well as the DigiWind **Virtual Campus**;
- **Gathering industry feedback** to align training programmes with evolving market needs.

Attendees visiting the stand C3-C112 will have the opportunity to explore DigiWind's educational offerings, engage with leading experts, and participate in various interactive activities designed to foster knowledge exchange and collaboration.

For more details about DigiWind's activities at WindEurope 2025, follow the project's [LinkedIn page](#) and visit the [official Website](#). Regular updates will be shared in the lead-up to and during the event.

Join us in Copenhagen from 8 to 10 of April and be part of the conversation shaping the next generation of wind energy professionals!
